DIVISION OF FACILITIES MANAGEMENT DESIGN & CONSTRUCTION

Capitol Complex Parking Lot 7 Repaving, Repair, and Restriping

WHAT:

The Capitol Complex Parking Lot 7 project will consist of replacing designated entrances, re-compacting failing base material, repaving and restriping the lower section of the parking lot. This parking lot serves the Capitol Complex, mainly the Harry S. Truman State Office Building with 261 parking spaces for state employees and visitors.

WHEN:

Brown and Root is scheduled to begin September 12, 2022. The current completion date is October 3, 2022.

- Phase I - South Entrance Repair, 9/12/2022 - 9/18/2022
- Phase II - Section Repair, 9/18/2022 - 9/26/2022
- Phase III - Lower Lot 7 Repaving, 9/26/2022 - 10/3/2022

WHAT TO EXPECT:

The completed construction project will result in a much needed smooth driving surface. There will be interruptions of traffic flow and use of the parking lot. Notices will be issued to the building's occupants as the project progresses.
