

## Single Feasible Source Purchase

Title: Poison Control Hotline

Description: To provide a statewide, twenty-four (24) hours per day, seven (7) days per week, Public Health Emergency Hotline staffed with medical personnel to handle inquiries specific to a variety of public health emergencies. Ability to transmit data on calls received for situational awareness during public health emergencies and that the call data has the ability to be analyzed using the Toxitrack software the Department of Health and Senior Services uses.

Missouri Poison Center qualifies as a single feasible source because they are the only poison center in Missouri that is certified as a regional poison control center by the American Association of Poison Control Centers, as required in section 190.353.1, RSMo. In addition, the Missouri Poison Center is the only entity in Missouri that provides both nursing and physician support twenty-four (24) hours per day, seven (7) days per week and utilizes the Toxitrack software.
