

Single Feasible Source Purchase

Title: Identity Verification and Authentication Services with LexisNexis Risk Solutions (LN): Amend Existing Contract to add LN Benefits Assessment Product and related services including FCRA Watercraft and FCRA Aircraft, Income Predictor, and Related Products

Description: The Division of Purchasing plans to amend existing statewide contract C215078001 with LexisNexis Risk Solutions (LN) to add products specifically for use by the Missouri Department of Social Services (DSS) as part of the DSS's eligibility verification process. Pursuant to Section 208.065 RSMo, the DSS is required to conduct data matches as part of their eligibility verification process. Contract C215078001 was established with LN to allow state agencies to acquire LN products that have been identified as the state standard for identity verification and authentication solutions. While the DSS plans to utilize products currently available on Missouri Contract C215078001, it is anticipated LexisNexis Risk Solutions' Benefits Assessment Product and related services (including FCRA Watercraft and FCRA Aircraft search capabilities), Income Predictor, and possibly other related products, will be added to Contract C215078001 for use specifically by the DSS for use as part of the DSS' eligibility verification process. LexisNexis Risk Solutions is the only feasible source for the additional data matching products to be added to the State of Missouri's existing statewide Identity Verification and Authentication Solutions contract C215078001. As a result, this represents a proprietary requirement that meets the criteria as a single feasible source under RSMo 34.044 and the State is pursuing this acquisition as a Single Feasible Source procurement.
