

Single Feasible Source Purchase

Title:	Software Maintenance & Support for Bentley CAD Products Currently in Use by MoDOT
Description:	<p>The Missouri Department of Transportation (MoDOT) has an ongoing need for maintenance & support services for their existing Bentley CAD products that have been maintained and supported under contract C2130080001. The Bentley software is owned by and is proprietary to Bentley Systems, Inc.</p> <p>The state intends to entertain competing software through a competitive bid process in late 2013. Until a new contract is established, software maintenance and support is required for existing products.</p> <p>The State intends to acquire the above-mentioned services via a single feasible source procurement through Bentley Systems, Inc., the manufacturer / owner of the software, since there are no other sources available to meet the specific needs of the state.</p>
Contract Period:	July 1, 2013 through June 30, 2014 with a 30-day Termination Provision
Agency:	Missouri Department of Transportation (MoDOT)
Supplier:	Bentley Systems, Inc.
Buyer:	Earl Pettit
