

Single Feasible Source Purchase

Title: SAS Mainframe Software License / Maintenance

Description: The Office of Administration, Information Technology Services Division (ITSD) State Data Center (SDC) has standardized on SAS software to perform retrieval, data management and data mining, report writing, statistical analysis, application development and data warehousing. It is not financially or operationally feasible to consider other platforms at this time due to the reinvestment that would be required as well as the conversion and knowledge transfer efforts that would be required. SAS is the sole source for renewal of the software licensed for use by the State Data Center. As a result, this represents a proprietary requirement that meets the criteria of a single feasible source under RSMo 34.044 and the State is pursuing this acquisition via a Single Feasible Source procurement.

Contract Period: July 1, 2017 through June 30, 2018

Renewal Options: Five one-year renewal option periods

Agency: Office of Administration, Information Technology Services Division (ITSD) – State Data Center
