

## **Single Feasible Source Purchase**

**Title:** Data Center Enterprise Mainframe Product Maintenance

**Description:** The Office of Administration Information Technology Services Division (OA ITSD) requires an enterprise agreement which provides continuing licensing, maintenance and support for their IBM data center products, including mainframe hardware/software, IBM Omegamon, IBM Connect:Direct, and IBM Transparent Data Migration Facility (TDMF). The licensing/maintenance of the products are proprietary and only available from IBM.

According to RSMo 34.044, a single feasible source can be utilized when the product/service requirement is proprietary and only available from a single provider. As a result, this represents a proprietary requirement that meets the criteria as a single feasible source under RSMo 34.044 and the State is pursuing acquisition of the required maintenance and support as a Single Feasible Source.

**Contract Period:** July 01, 2017 through June 30, 2018

**Renewal Options:** Five (5) One-Year Renewal Options

**Agency:** Office of Administration, Information Technology Services Division (OA ITSD)

**Supplier:** IBM

**Buyer:** Paul Linhardt
