

Addendum No. 1

TO: PLANS AND SPECIFICATIONS FOR

Massa Breach Reclamation Project
Barton County, Missouri
Project No: Y2102-01

Bid Opening Date: **Unchanged: 1:30 P.M., Thursday, March 11, 2021.**

Bidders are hereby informed that the construction plans and/or specifications are modified as follows:

1. SPECIFICATIONS:

a. 002113 – INSTRUCTIONS TO BIDDERS

Delete Paragraph 1.0.A and replace with the following:

1.0.A The Bidder should review Section 013513 – Site Security and Health Requirements prior to submitting a bid.

b. 329219 – SEEDING

Delete Paragraph 3.3.A.1 and replace with the following:

3.3.A.1 All disturbed areas shall receive fertilizer at a rate of **sixty** (60) pounds of actual nitrogen per acre, one hundred (100) pounds of actual phosphorous per acre, and one hundred and fifty (150) pounds of actual soluble potassium per acre; or as otherwise directed by the Resident Project Representative.

(Please note that all fertilizer application rates remain unchanged in paragraph 3.3.A.1; the purpose of this clarification is to correct the conflicting word *forty* to **sixty** (60) pounds of actual nitrogen. Also, the quantities of applied and incorporated total nitrogen, total phosphorus, and total potassium called for in the Unit Prices remain unchanged.)

2. PLANS:

a. C-100 – PLAN VIEW AREAS 1 & 2

Clarification: As brought-up by the designer Brent Willeford at the prebid meeting, the silt fence CAD layer lines were accidentally not turned-on/shown in drawing C-100. However, Unit Price #7 correctly accounts for the 3,437 lineal feet of installed silt fence that bidders are to include in their bid. Revised C-100 drawing copies showing the silt fence line locations will be provided for free to the successful Contractor at the pre-con meeting.

3. GENERAL NOTES:

- a. A separate tree clearing contract was awarded by DNR Land Reclamation to have the on-site trees cut down and pile-up before the 4/1/21 start of the bat migration season. The tree cutting/piling work is underway and should be complete by around 3/12/21. Bidders are welcome to revisit and see the site with most of the trees cut-down, before the Thursday 3/11/21 bids due date.

4. ATTACHMENTS:

- a. February 22, 2021 Pre-bid Attendee List – 2 pages.

**End of Addendum #1
March 5, 2021**
