Is your governmental entity's website for your bid postings included in the State of Missouri, Division of Purchasing's Bid Locator Tool's search functionality so that more vendors can find your bid opportunities?

The MissouriBUYS Bid Locator Tool is a search engine that crawls Missouri's public sector websites to help vendors and others locate government bid solicitations in Missouri including local, federal and political subdivision bids. Being able to locate public bid opportunities on a single website without having to search multiple sites saves time for vendors and others, and it can mean more visibility for entity bids. Buyers from local government agencies can also view other agencies' solicitations and specifications which can be useful in preparing procurements.

Numerous search fields and filters can be used to locate bid opportunities for all levels of government in Missouri. You can also set up 'Alerts', 'Save' searches and 'Share' bid opportunities with others. Once a bid of interest is selected, the user can click on the 'View Official Site' button and be redirected to the governmental entity's bid page for additional bid details.

The MissouriBUYS Bid Locator Tool is powered by InstantMarkets and is part of the state's eProcurement solution. There is no charge to vendors or Missouri government entities for the

tool. The tool can be accessed by going to <https://missouribuys.mo.gov/business-opportunities> or by clicking on the Bid Locator Tool button on the MissouriBUYS Bid Board at <https://missouribuys.mo.gov/bidboard>.

'Step-by-step instructions' and 'Frequently Asked Questions' are available on the MissouriBUYS website. <https://missouribuys.mo.gov/business-opportunities>

Is your governmental entity's bid site/URL included in the Bid Locator Tool's search functionality? The current Missouri Government Entities that are found in the tool can be found at [Bid Locator Tool's Missouri Government Entities | MissouriBUYS \(mo.gov\)](#).
