Filling Gaps With Cooperative Contracts

Purchasing periodically uses contracts established by other governmental entities under our statutory cooperative procurement authority (Section 34.046 RSMo) to fill some immediate contract needs or to leverage available pricing and terms of large-volume contracts.

Purchasing is working on setting up the following statewide contracts under this procurement methodology:

- ◆ Public Safety Video Systems
- ◆ Recycling Equipment
- ◆ Inmate Kiosks & Communications
- ◆ Copiers and Managed Print Services
- ◆ Wireless Data, Voice, IoT & Accessories
- ◆ LED Emergency Light Bars, Sirens and Accessories

Statewide Contract Team Member Spotlight

Jason Kolks

Hello Everyone! I'm Jason Kolks, a Buyer IV with the Statewide Team in the Division of Purchasing. I also serve as Purchasing's Spend Management Analyst.

I began my career with the State of Missouri in 2010 working for the Dept. of Corrections. In July of 2012 I was hired by Purchasing as a Buyer I for the Services Section. After four years, I moved to the Commodities Section, which is now known as the Statewide Team.

As a buyer, I have handled service contracts relating to printing, transportation, conference, and environmental; grounds maintenance equipment, construction equipment, material handling equipment, and large trucks. I currently handle vehicle related purchases, temporary staffing and mailing services.

As the Spend Management Analyst, I develop and maintain spend category taxonomy and crosswalks, analyze spend data for new statewide contracting opportunities, conduct opportunity assessments, work with buyers to monitor adequacy and effectiveness of existing statewide contracts, and work with buyers to help develop, maintain and enhance spend management awareness.

If you have any questions, contact me at jason.kolks@oa.mo.gov. Jason Kolks
