1a. What strategic priority does this program address?

Coordinate a certification system for sign language interpreters

1b. What does this program do?

Missouri Commission for the Deaf and Hard of Hearing (MCDHH) coordinates a certification system for sign language interpreters to ensure Deaf and Hard of Hearing Missourians have access to quality interpreting services. The Missouri Interpreter Certification Service (MICS) measures and evaluates sign language interpreter proficiency using an empirically-based system. This system is measured according to standards of minimum competency set by certified and practicing interpreters, language and testing specialists, and language evaluators. The test originated in Texas and is currently used in Texas, Illinois, Michigan and Missouri. Due to COVID-19, interpreter testing was limited for most of FY 2021.

The cost of the testing program includes a \$10,000 annual lease to the State of Texas for written and performance testing materials. This cost is partially offset by fees charged to interpreters who take these tests, which are seen as some of the premier indicators of interpreter ability in the country. The BEI (Board for Evaluation of Interpreters) test used is highly respected around the country, and a number of other states are considering adopting it as their standard.

2a. Provide an activity measure(s) for the program.

*TEP (Test of English Proficiency)
