1a. What strategic priority does this program address?

Improve the health and safety of Missourians most in need and Enhance access to care.

1b. What does this program do?

The Extended Women's Health program provides funding for family planning and family planning-related services, pap tests and pelvic exams, pregnancy testing, sexually transmitted disease testing/treatment, and follow-up services for eligible women. This program also provides education and outreach to encourage eligible women to access the family planning services and family planning-related services offered. Eligible women include those with a family Modified Adjusted Gross Income for the household size that does not exceed 201 percent of the Federal Poverty Level, and uninsured women losing MO HealthNet coverage at the conclusion of 60 days postpartum for one additional year. Program services are intended to reduce the number of unintended pregnancies for eligible women and thereby reduce Medicaid expenditures. Unintended pregnancies, which account for nearly half (45 percent) of all pregnancies in the United States, are also associated with risks of other health issues such as low birth weight and maternal depression. The services provided by this program also assist women in preventing the spread of sexually transmitted infections.
