1a. What strategic priority does this program address?

Reduce opioid misuse and Improve the health and safety of Missourians most in need.

1b. What does this program do?

The Bureau of Health Care Analysis and Data Dissemination and the Bureau of Epidemiology and Vital Statistics are responsible for collecting, analyzing, and providing health information on a range of health conditions and diseases, risk factors, and preventative practices. This information is used by local, state, and national partners in addressing the overall health and wellness of Missourians. Areas of emphasis include, but are not limited to, substance abuse, maternal and child health, chronic disease, and communicable disease. Activities include:

- Serving as the subject matter experts on issues affecting Missourians across their lifespan.
- Collecting, analyzing, and interpreting health related data for use by internal and external stakeholders.
- Providing statistical and analytical services to many state public health programs and the public through ad-hoc requests, publications, online data applications, presentations, and exhibits.
- Providing the information necessary to shape policy decisions and promote evidence based practices, which assist public health organizations (local, state, and national) to increase positive health behaviors and promote overall public health.

2a. Provide an activity measure(s) for the program.
