1a. What strategic priority does this program address?

Whole Person Health Access.

1b. What does this program do?

The Show-Me Healthy Women and WISEWOMAN programs contract with public and private health care providers in 90 counties and the City of St. Louis to provide early detection and prevention services for breast and cervical cancer, cardiovascular disease, diabetes, and stroke. These programs also process provider claims and oversee service providers through quality assurance monitoring. Services provided by these programs include: examination by a health care provider; screening mammograms; pap smears; diagnostic testing; case management; transportation for women to their screenings; and public education regarding the importance of screenings for breast cancer, cervical cancer, cardiovascular disease, diabetes, and stroke.

2a. Provide an activity measure(s) for the program.

Cost Savings Associated with Early Detection of Breast and Cervical Cancer

Detecting and treating breast and cervical cancers at an early stage saves lives. Early detection also results in savings related to treatment of the cancer. Per the source below, it is estimated treatment costs savings associated with screening (on average per case for all stages of detection) is \$6,180 for breast cancer and \$17,238 for cervical cancer.
