<b>Department:</b> <u>Mental Health</u>	<b>HB Section(s):</b> <u>10.110</u>
<b>Program Name:</b> <u>Forensic Support Services</u>	
<b>Program is found in the following core budget(s):</b> <u>DBH Community Treatment</u>	
<p><b>1a. What strategic priority does this program address?</b> Foster ongoing recovery and self-sufficiency through treatment, habilitation, and integration of community services for Missourians with mental illness and developmental disabilities in state-operated programs.</p> <p><b>1b. What does this program do?</b> The Department of Mental Health (DMH) is statutorily mandated to monitor forensic clients acquitted as not guilty by reason of mental disease or defect (formerly known as "Not Guilty by Reason of Insanity" or "NGRI") who are granted a conditional release to the community by the court and those committed as sexually violent predators. Monitoring is a public safety function that is provided by Forensic Case Monitors under the direction of the Director of Forensic Services and the facility Forensic Review Committee. There are 13 Forensic Case Monitors located across the state who oversee 415 clients on court-ordered conditional release statewide.</p> <p>Forensic Case Monitors review the case of each client on conditional release at least monthly, to determine compliance with court-ordered conditions of release and to ensure that forensic clients are receiving treatment consistent with their needs and the goal of public safety. If the Forensic Case Monitor determines the client has violated court-ordered conditions or needs inpatient psychiatric treatment, the client may be voluntarily admitted back to the state facility or the Director of Forensic Services may issue an order returning the client to inpatient treatment and initiate proceedings to revoke the conditional release. The Forensic Case Monitors must also testify at court proceedings and revocation hearings and must educate community providers about forensic and public safety issues.</p> <p>DMH, upon order of the Circuit Court, provides pretrial evaluations on issues of competency to stand trial and criminal responsibility. DMH requires that evaluations be completed by Certified Forensic Examiners who must hold doctorate degrees in medicine, osteopathy or psychology and who must complete required supervision and training.</p>
