**1a. What strategic priority does this program address?**  
 Provide inpatient treatment program for adults with complex mental abnormalities.

**1b. What does this program do?**  
 The state-operated Sex Offender Rehabilitation and Treatment Services (SORTS) provides treatment to change the person's mental abnormality so that the person is not likely to commit acts of sexual violence if released. The SORTS provides appropriate treatment and housing for individuals adjudicated by the courts as sexually violent predators. With passage of the Sexually Violent Predator law, which was effective January 1, 1999, the Missouri General Assembly mandated that individuals adjudicated by the court as sexually violent predators be committed indefinitely to the custody of the Director of the Department of Mental Health for "control, care and treatment until such time...that the person is safe to be at large". In order for such commitments to pass constitutional scrutiny, the Department must provide care and treatment that is consistent with existing professional standards and practice, and federal case law. The law also requires that individuals committed for treatment as sexually violent predators be kept in a secure facility and housed separately from Department of Corrections inmates and from other mental health clients who have not been found to be sexually violent predators.

The current SORTS program is operated within two Division of Behavioral Health (DBH) facilities, Southeast Missouri Mental Health Center (SEMO) and Fulton State Hospital (FSH).

The SORTS program is responsible for preparing clients for community reintegration. If clients are provided a conditional release by the probate court, the program is also responsible for facilitating the transition into the community and for communication with community providers, Probation and Parole, and DBH Forensic Case Monitors who provide community supervision.

In addition to the housing and treatment of individuals committed under this statute, the Department provides a psychiatrist and/or a psychologist to participate in the Multidisciplinary Team to assist the Prosecutor's Review Committee in determining whether an individual may meet the definition of a sexually violent predator. Furthermore, the Department is required to provide a psychiatrist or psychologist to evaluate each individual for whom the court finds probable cause to believe the person is a sexually violent predator. Finally, the Department must provide the committing court an annual report regarding the committed person's mental condition.
