

PROGRAM DESCRIPTION

Department of Public Safety / Fire Safety

HB Section(s): 08.160

Program Name: Training and Certification Program

Program is found in the following core budget(s): Fire Safety Core

1a. What strategic priority does this program address?

Well-trained and safe fire fighters

1b. What does this program do?

The Division of Fire Safety's Training and Certification Unit provides quality training and internationally accredited certification to Missouri's fire service and emergency response community. The Unit has been accredited through the International Fire Service Accreditation Congress (IFSAC), as well as the National Board of Fire Service Professional Qualifications (Pro Board) which require certifying entities to follow strict guidelines and meet the most current standard of the National Fire Protection Association (NFPA).

Many fire departments around the state require certification prior to hiring and promoting individuals. The Division currently offers 27 levels of certification and numerous training programs and has issued over 99,000 certifications since the program's implementation in 1985.

There are approximately 847 fire departments and 25,000 fire fighters serving Missouri citizens. Of those, it is estimated 80% volunteer their service and have limited, if any resources for life-saving training. The Division's Training and Certification Unit plays a vital role in providing these services.

2a. Provide an activity measure(s) for the program.

HB Section(s): 08.160

Program Name: Training and Certification Program

Program is found in the following core budget(s): Fire Safety Core

2b. Provide a measure(s) of the program's quality.

All training programs provided by the Division of Fire Safety are based on National Fire Protection Association standards in order to ensure credibility and consistency. Additionally, Division certification programs are verified and validated by the International Fire Service Accreditation Congress and the National Board of Professional Qualifications. This allows Missouri's fire service to be recognized for their training worldwide and ensures competency and consistency when fire fighters from multiple departments respond to an emergency incident.

Similar programs exist in other states, including our neighboring states which also offer some accredited certification levels:

Illinois: 38

Iowa: 11

Nebraska: 10

Oklahoma: 14

Kentucky: 15

Arkansas: 37

Tennessee: 29

Accredited certification levels offered by the Missouri : 27

2c. Provide a measure(s) of the program's impact.

Courses and programs continue to see increase in requests and participation indicating overall satisfaction and need. Trained fire fighters are capable of providing a safer and more effective response to citizens in need.

Cumulative Fire Fighters Trained & Certified
