1a. What strategic priority does this program address?

Health and continuum of care

1b. What does this program do?

Funding for Clinical Services Program Management (CSPM) supports contractor costs for pharmacy and clinical services. Conduent operates and manages the web-based clinical editing process for the point-of-sale pharmacy and medical claims, medical and drug prior authorization, pre-certification, and Drug Utilization Review (DUR). The current CSPM claim processing system allows each claim to be referenced against the participant's claims history including pharmacy, medical, and procedural data (ICD-9/10 and CPT codes), providing real-time data to participating MHD providers. For patients that meet approval criteria, the claim will be paid automatically. In instances when a phone call is necessary, the hotline call center is available seven days a week, which allows providers prompt access to a paid claim for the requested product or service. In addition to receiving messages regarding the outcome of the processing of claims and the amount to be reimbursed, pharmacy providers receive prospective drug use review alert messages at the time prescriptions are dispensed.

*CyberAccess*SM is a web-based tool that allows healthcare providers to electronically request drug and medical prior authorizations for their MO HealthNet patients, review historical claims data, view and/or enter clinical data in a patient's Electronic Health Record (EHR), select appropriate preferred medications and electronically prescribe, and electronically request inpatient certifications. The continued funding for *CyberAccess*SM is critical to continue supporting the pharmacy and medical cost containment initiatives and electronic health records. Early Periodic Screening, Diagnosis, and Treatment (EPSDT) forms and patient-specific lab results are currently available through the platform. Linkages to other health record systems yielding interoperability between systems are under development (Health Information Network {HIN}). A companion participant web portal tool, Direct Inform, has been developed and deployed to pilot providers.

2a. Provide an activity measure for the program.

Future projections are based on eligibility requirements as of 7/1/20.

2b. Provide a measure of the program's quality.

CyberAccess Provider Outreach Representatives continue to do provider outreach, expressing the importance of utilizing Cyber Access when verifying drug and medical rules. Pharmacy is carved out of Managed Care, hence the continued increase. Most medical services are not carved out of Managed Care, therefore there is a decrease in the number of rules verified.
