Program Name: Foster Parent Training

Program is found in the following core budget(s): Foster Parent Training

1a. What strategic priority does this program address?

Safety and wellbeing for foster youth in stable foster placements.

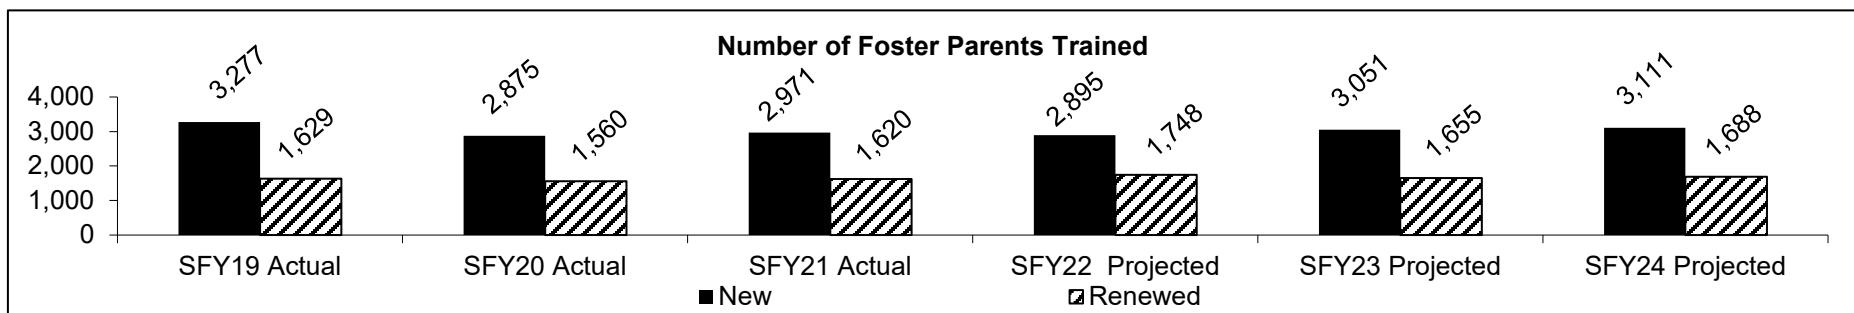

1b. What does this program do?

The Children's Division Foster Parent Training program equips applicants for the roles and responsibilities of foster parenting and provides existing foster parents with advanced training to enhance their functioning as foster parents. Pre-service training introduces applicants to the goals of foster parenting, provides them with an overview of the entire foster care system, and prepares them for the challenges of parenting foster children. In-service training provides foster parents with the opportunity to strengthen their foster parenting skills in a variety of different areas specific to the children they are parenting and challenges encountered.

The specific parenting skills needed to meet the unique needs of the foster youth population and their caregivers are continually assessed through national research and provider engagement. New training topics are continuously being reviewed and added to training requirements.

New foster parents must complete the family assessment process and 27 hours of Foster Specialized Training, Assessment, and Resource Support/Skills pre-service training. Relative care providers must complete the family assessment process and the 9-hour STARS for the Caregiver Who Knows the Child pre-service training. These programs are competency-based, and designed to strengthen the quality of family alternative care services by providing the tools and skills families need to protect and nurture foster children, meet children's developmental needs, support relationships between children and their families, connect children with safe nurturing relationships intended to last a lifetime, and work as a member of the family support team. Families must demonstrate competence in the aforementioned areas before they are licensed. Children's Division is coordinating pilots of two new resources parent pre-service training curriculums to help foster and adoptive resources applicants by providing the best training available to equip them with skills and information to co-parent the Children's Division's population of children in foster care. The resource parents are expected to work closely with birth families and are required to obtain 30 hours of training during each 2-year licensing period.

2a. Provide an activity measure(s) for the program.
