1a. What strategic priority does this program address?

Provide additional reimbursement to qualifying public nursing facilities

1b. What does this program do?

This program provides additional reimbursement to qualifying public nursing facilities for their unreimbursed cost, subject to the upper payment limit (UPL). State Medicaid programs cannot pay nursing facilities more than what Medicare would have paid (i.e., Medicare UPL) in the aggregate for the different ownership/operating categories of nursing facilities (i.e., state government, non-state government and private).

Annual payments are made to the following qualifying public nursing facilities through an approved state plan amendment:

- Truman Medical Center - Lakewood
- Pemiscot Memorial Hospital

An intergovernmental transfer (IGT) process is used to fund the non-federal share of the payment. The qualifying facilities use the IGT process to transfer the non-federal share of payments to the state prior to the state making the payments. The state pays out the total claimable amount, including both the state and federal share. The state demonstrates that the non-federal share of the payments is transferred to, and is under the administrative control of, the MO HealthNet Division before the total computable payment is made to the qualifying public nursing facilities.

This program is exempt from performance measures as it is an intergovernmental transfer.
