Resources

This manual was a cooperative project of the St. Charles County Soil & Water Conservation District, and the Dam and Reservoir Safety Program, Division of Geology and Land Survey in the Missouri Department of Natural Resources, under a Section 319 U.S. Environmental Protection Agency grant administered by the Missouri Department of Natural Resources.

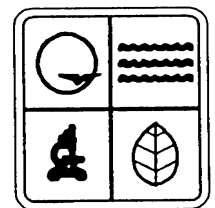

# Instructional Materials for Protecting Water Quality

A field guide to erosion, sediment and storm water best management practices for development sites in Missouri.

The publication of these materials and the "Protecting Water Quality" manual was funded in part by the Missouri Department of Natural Resources, administered by the Water Pollution Control Program, Division of Environmental Quality under Subgrant G94-NPS-03. Funds for the subgrant award of \$62,538 (55% of the total project cost) were made available from the United States Environmental Protection Agency under authority of Section 319 of the Clean Water Act.

The manual was a cooperative project of the St. Charles County Soil and Water Conservation District and the Dam and Reservoir Safety Program, Division of Geology and Land Survey, Missouri Department of Natural Resources.
