

Single Feasible Source Purchase

Title: Extension of Contract for Health Information Exchange (HIE) Network Services

Description: The State of Missouri currently has a contract (C214047001) for HIE Network Services with Missouri Health Connection (MHC) which expires on December 9, 2016. Efforts are underway to replace the contract through a competitive Request for Proposal (RFP) process but are not completed. Until a new contract is able to be awarded as a result of the RFP, interim contract services are required by the Department of Social Services (DSS). MHC has been under contract for the provision of their proprietary services since December 2013. It is feasible to continue their services through extension of the contract through the interim period since another contract vehicle is not currently available. This meets the criteria for a single feasible source based on a proprietary requirement pursuant to RSMo 34.044.

Contract Period: December 10, 2016 through June 9, 2017

Agency: Department of Social Services

Supplier: Missouri Health Connection (MHC)
