

Single Feasible Source Purchase

Title: LDO Sensor Preventative Maintenance and SC200 Field Service

Description: The Missouri Department of Conservation utilizes the Hach sc200 and LDO sensor to test dissolved oxygen levels at various fish hatcheries. Hach will perform field service of the sc200 and preventative maintenance of the LDO sensor. Hach factory-trained personnel are the only people authorized to perform any repair, start-up service or maintenance on the sc200 and LDO sensor. Hach does not recognize or authorize any other service organization to perform repair or recalibration on the sc200 or LDO sensor. Furthermore, any unauthorized repairs will void the warranty. Therefore, Hach is considered a single feasible source for the preventative maintenance for the LDO sensor and the field service of the sc200.

Contract Period: July 1, 2017 through June 30, 2018

Renewal Options: Two (2), one (1) year renewal options

Agency: Missouri Department of Conservation

Supplier: Hach Company
