

PROGRAM DESCRIPTION

Department: Agriculture
Program: Manufacturing Grade Milk Inspection
Program is found in the following core budget(s): State Milk Board

HB Section(s): 6.130

1a. What strategic priority does this program address? Empower More Dairy Farmers & Agribusinesses

1b. What does this program do?

Inspects and tests Missouri manufacturing grade milk, milk processing plants and laboratories, and aseptic milk processing plants. Manufacturing grade dairy processing plants produce cheese, butter, retorted drinks, and infant formulas that are distributed and sold throughout the world. Manufacturing grade dairy farms and dairy processing plants must meet sanitation requirements in Title 21 Code of Federal Regulations (CFR). The State Milk Board tests and licenses bulk milk haulers and samplers, milk testers, dairy marketing personnel and solicitors of manufacturing grade milk to ensure precision and accuracy at all levels of milk handling. Sanitation inspections, equipment testing and processing equipment sealing is performed in manufacturing grade processing plants to ensure food safety to consumers. Every bulk milk tank is sampled and tested before milk leaves the farm. Every co-mingled load of milk is tested prior to unloading at a manufacturing grade dairy processing facility. State Milk Board inspects and licenses milk truck wash stations to ensure food safety standards are met and that producer's milk is transported in a clean and sanitary transport carrier.

2a. Provide an activity measure for the program.

The State Milk Board ensures manufacturing grade milk quality and safety by testing and timing pasteurizers and providing inspection services at the following locations:

Manufacturing Grade	FY15	FY16	FY17	FY18	FY19	FY20	FY21	FY22	FY23 Proj.	FY24 Proj.
