

PROGRAM DESCRIPTION

Department of Conservation

HB Section(s): 6.600

Program Name: Habitat Management

Program is found in the following core budget(s): Habitat Management

1a. What strategic priority does this program address?

Take care of nature

1b. What does this program do?

Terrestrial Habitat Management - The Missouri Department of Conservation (MDC or Department) manages terrestrial habitat on public land for Missouri citizens by restoring and maintaining healthy land, water, and forests.

MDC is implementing a tiered approach to public land management to prioritize resources efficiently. This tiered approach will guide staff to prioritize where public land management work should occur within a region and encourage citizens and other conservation partners to apply their effort and resources in these priority areas.

Focusing resources in areas with the greatest conservation value will, over time, produce the best yield in conservation benefit for citizens. MDC will continue to promote the benefit of conservation utilizing public land resources through the prioritized and tiered delivery of technical and financial assistance.

Following sound science and the use of established best management practices, the Department works to improve terrestrial habitat on grasslands, prairies, forests, glade, savanna, woodlands and natural areas. This work is accomplished by following the Sustainable Forestry Initiative Standards and the Missouri Comprehensive Conservation Strategy in the management and restoration of habitats, use of prescribed fire, conservation grazing, habitat surveys, and invasive species control and management.

Aquatic Habitat Management – The Department manages aquatic habitat on public land and waters for Missouri citizens by restoring and maintaining healthy land, water, and forests.

MDC is implementing a tiered approach to aquatic management to prioritize resources efficiently. This tiered approach will guide staff to prioritize where aquatic management work should occur within a region and encourage citizens and other conservation partners to apply their effort and resources in these priority areas.

Focusing resources in areas with the greatest conservation value will, over time, produce the best yield in conservation benefit for citizens. MDC will continue to promote the benefit of conservation utilizing aquatic resources through the prioritized and tiered delivery of technical and financial assistance.

Aquatic habitat work includes Resource Assessment and Monitoring, habitat surveys, improvement of Aquatic Organism Passage barriers, and aquatic plant and nuisance species control and management. Following sound science and the use of established best management practices, the Department works to enhance streams, lakes, and ponds and their watersheds through erosion control, plantings, and addition of cover and structure to best support aquatic species.

Program Name: Habitat Management

Program is found in the following core budget(s): Habitat Management

1b. What does this program do? (continued)

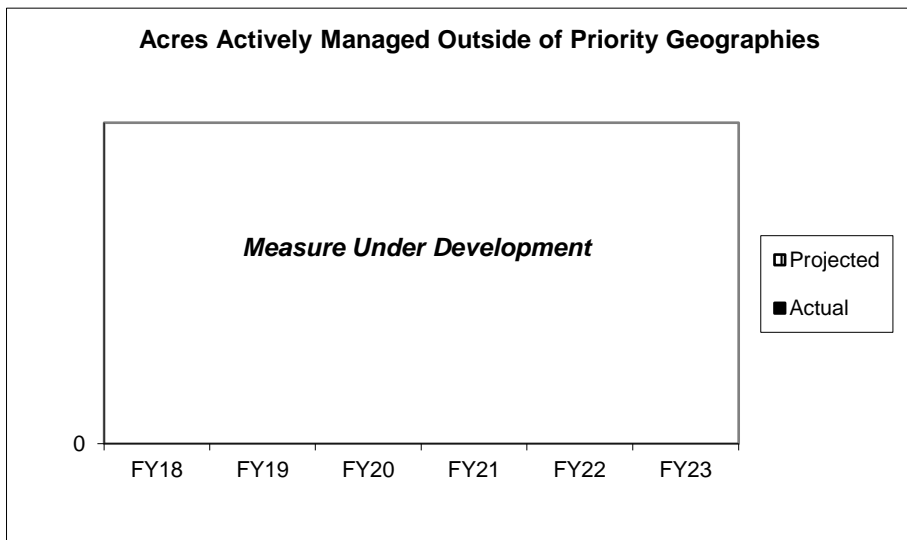

Private Land Conservation - The Department assists private landowners manage terrestrial and aquatic habitat on their lands by restoring and maintaining healthy land, water, and forests.

MDC is implementing a tiered approach to private land management to prioritize resources efficiently. This tiered approach will guide staff to prioritize where private land management work should occur within a region and encourage citizens and other conservation partners to apply their effort and resources in these priority areas.

Department staff, citizens and other conservation partners will understand the value of focusing resources in areas with the greatest conservation value and, over time, acknowledge the benefit of promoting conservation of private land resources through prioritized and tiered delivery of technical and financial assistance.

Following sound science and the use of established best management practices, the Department will provide technical assistance to private landowners statewide and develop partnerships to address our highest identified priority focus areas. The Department will continue to seek new partnerships to make funding go further while achieving greater results for fish, forest, and wildlife habitat on private lands. In doing so, we will promote the importance of wildlife friendly practices with production agriculture to strengthen a conservation land ethic.

2a. Provide an activity measure(s) for the program.

PROGRAM DESCRIPTION

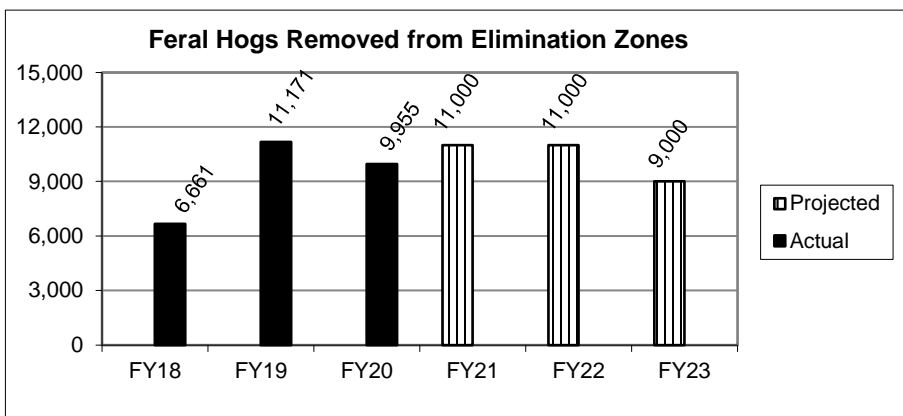

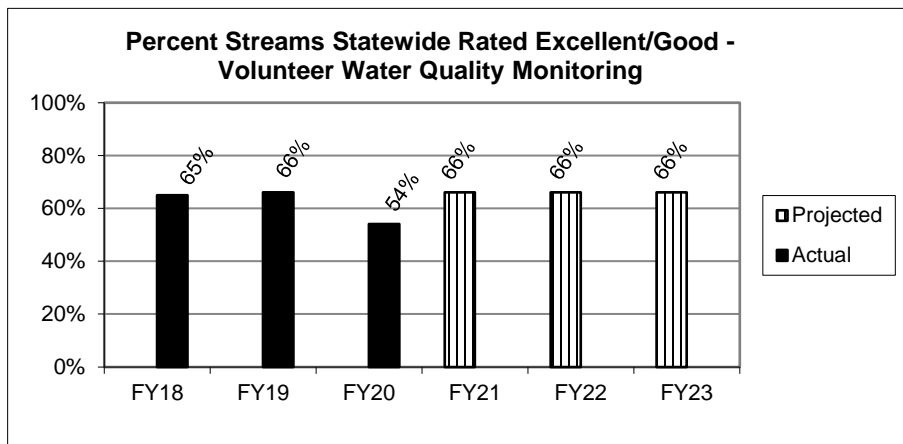

Department of Conservation

Program Name: Habitat Management

Program is found in the following core budget(s): Habitat Management

2a. Provide an activity measure(s) for the program. (continued)

*There is no data available for FY19.

This measure is provided in cooperation with USDA APHIS.

PROGRAM DESCRIPTION

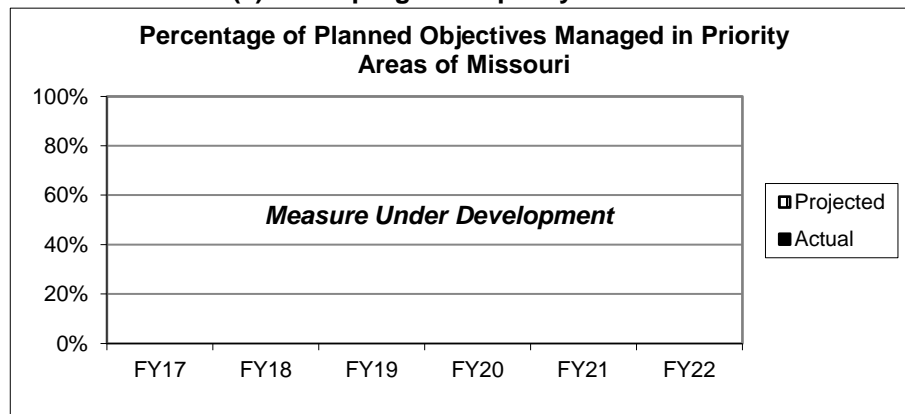

Department of Conservation

HB Section(s): 6.600

Program Name: Habitat Management

Program is found in the following core budget(s): Habitat Management

2b. Provide a measure(s) of the program's quality.

2c. Provide a measure(s) of the program's impact.

Following sound science and the use of established best management practices, the Department works to improve terrestrial and aquatic habitat on public and private lands across Missouri. This work is accomplished by following the Sustainable Forestry Initiative Standards and the Comprehensive Conservation Strategy to conduct management and restoration of habitats, including the use of prescribed fire, conservation grazing, habitat surveys, and invasive species control and management. Aquatic habitat work includes Resource Assessment and Monitoring, habitat surveys, improvement of Aquatic Organism Passage barriers, and aquatic plant and nuisance species control and management. Following sound science and the use of established best management practices, the Department works to enhance streams, lakes, and ponds and their watersheds through erosion control, plantings, and addition of cover and structure to best support aquatic species.

Program Name: Habitat Management

Program is found in the following core budget(s): Habitat Management

2d. Provide a measure(s) of the program's efficiency.

MDC will monitor the cost and effort per acre in addition to the number of acres under active management on public and private land within identified priority geographies and outside of those priorities.

Number of Acres Under Active Management in Priority Areas

	FY18	FY19	FY20**	FY21	FY22	FY23
Public Lands Projected	0	0	0	514,000	514,000	514,000
Public Lands Actual	0	455,260	513,213	0	0	0
Partner Lands Projected	0	0	0	761,520	761,520	761,520
Partner Lands Actual	0	761,520	761,520	0	0	0
Private Lands Projected	0	0	0	75,000	76,000	77,000
Private Lands Actual	69,844	73,831	72,475	0	0	0

** Agency updated spatial data resulting increased public land acres.

3. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year. (Note: Amounts do not include fringe benefit costs.)

Program Name: Habitat Management

Program is found in the following core budget(s): Habitat Management

4. What are the sources of the "Other " funds?

Conservation Commission Fund (0609)

5. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Authorization for this program is by state constitutional mandate adopted November 3, 1936.

6. Are there federal matching requirements? If yes, please explain.

No; however, this program participates in various federal programs, each with unique matching requirements.

7. Is this a federally mandated program? If yes, please explain.

No.
