If you recently opted-out unintentionally, just login to WeSave.com → Go to My Account → Click Email Settings and subscribe

FAQ'S: OPT-OUT VS. SPAM

What is the difference between Opting-Out vs. SPAM? Often people mark email as SPAM when their intent is to opt-out of an email list. Opting-out permanently removes your email address from our list while marking an email as SPAM does not unsubscribe you from an email distribution list and you will continue to receive emails.

WHY IS THIS IMPORTANT TO WESAVE MEMBERS? When an email is flagged as SPAM, a complaint is reported to our email service provider. If SPAM complaints continue, the email service could suspend, terminate or prevent WeSave from sending emails to those members who have subscribed to receive WeSave promotions.

What to do? If an employee no longer wishes to receive emails from WeSave, all that is required is to click the **Unsubscribe or Opt-Out link** in the email; this link will always be posted at the top of the email. Once you have opted-out you will no longer receive emails from WeSave. Alternatively, employees can login to WeSave.com → Go to My Account →

accomplish the goal.

WeSave takes pride in monitoring our email subscription lists and we are committed to only sending promotions to those who have a desire to receive discount and savings benefits via email. We utilize email technology services to ensure that our emails are delivered to subscribers only, and we continuously remove those requesting to unsubscribe or opt-out from our list.
