**HB Section(s): 4.530**

**Program Name: Airport CI & Maintenance**

**Program is found in the following core budget(s): Airport CI & Maintenance**

**1a. What strategic priority does this program address?**

Safety - moving Missourians safely

Service - providing outstanding customer service, delivering efficient and innovative transportation projects and operating a reliable transportation system

**1b. What does this program do?**

This program is to ensure that Missouri's airports meet acceptable safety and performance standards through adequate capital improvement and maintenance funding from the Aviation Trust Fund (ATF). State aviation funding sources are from user fees including a 9 cent per gallon tax on aviation gasoline and 3 percent of the 4.225 percent state sales tax collected on jet fuel. The ATF is used for planning, environmental, land acquisition, design, and ultimately, project construction. Eligible projects include pavement maintenance, lighting, obstruction removal and other safety improvements, as well as air traffic control operating costs and air service promotion and marketing. MoDOT uses Federal Aviation Administration Order 5090.5 to prioritize ATF projects. Project prioritization includes consideration of the number of based aircraft, activity levels and the type of project requested. MoDOT also considers other factors, such as the political subdivision's willingness and ability to complete the project, commitment of local matching funds and prior maintenance and support of the airport. The ATF grants require a 10 percent local match for most projects; however, projects including aviation safety workshops, promotion of aerospace education, air markers and windsocks and emergency projects designated by the Missouri Highways and Transportation Commission can be funded entirely with state funds.

**2a. Provide an activity measure(s) for the program.**

The 2021 and 2022 projections are based on the number of airports currently open in 2020. Missouri has 121 public use airports. In order to be eligible for ATF assistance, a public use airport must also be publicly owned. Missouri currently has 107 publicly owned public use airports that are eligible for ATF assistance. The remaining 14 public use airports are privately owned.

**2b. Provide a measure(s) of the program's quality.**

All projects using federal or state aviation funds are reviewed by MoDOT prior to bid advertisement. Grant funding for the project is provided after the bid award. The 2021 and 2022 projections are based on the average of actuals for the last three years.

**2c. Provide a measure(s) of the program's impact.**

This includes all public airport runways that are eligible to receive federal or state aviation funds. The 2021 and 2022 projections are considered the ideal percent of pavement in good condition.

2d. Provide a measure(s) of the program's efficiency.

Aviation projects are programmed, or budgeted, in the department's Statewide Transportation Improvement Program (STIP). Once a project is awarded and work begins, final project costs can change from the original programmed cost in the STIP. Aviation project cost changes are usually caused by final quantity adjustments, federal inspections, subgrade issues or other additional construction phase service costs. The 2021 and 2022 projections are based on the average of actuals for the last three years.

3. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year. (Note: Amounts do not include fringe benefit costs.)
