2b. Provide a measure(s) of the program's quality.

Data is collected through a biennial telephone survey conducted by a consultant from interviews of approximately 3,500 randomly selected adult Missourians. The question surveyed was, "How satisfied are you with MoDOT's efforts to keep bridges in good condition?". Overall satisfaction for the years above was calculated by adding the very satisfied and the satisfied responses. The 2021 and 2023 projections were established by projecting a two and five percent increase from the 2019 survey, respectively. No survey was conducted in calendar years 2014, 2016, 2018 and 2020.

2c. Provide a measure(s) of the program's impact.

This measure shows the percent of structurally deficient deck area for bridges on the National Highway System (NHS). The MoDOT system currently has 3,570 NHS structures, with 161 being structurally deficient. The FAST Act established a 10 percent penalty threshold for states that, when exceeded, requires a state to focus money on bridges until they are back under 10 percent. Data for calendar year 2020 was not available at the time of publication due to delays caused by the COVID-19 pandemic.

2d. Provide a measure(s) of the program's efficiency.

MoDOT works to meet the initial contract completion date by preparing accurate plans and quantities and setting aggressive but reasonable completion dates. Occasionally, an authorized extension of the completion date is required for things like weather or additional work. This measure tracks the percentage of road and bridge projects completed by the commitment date originally established in the contract. MoDOT's target is 80 percent.

The Focus on Bridges program will repair or replace 250 bridges in poor condition across Missouri. This program will be complete when all 250 bridges have been awarded and completed. It is projected that all 250 bridges will be awarded by the end of fiscal year 2023.
