2b. Provide a measure(s) of the program's quality.

The Federal Transit Administration's Section 5310 formula grants provide capital and operating assistance to transportation service providers serving the mobility needs of senior citizens and/or persons with disabilities in Missouri's urban and rural areas of the state. A deficiency is a violation of a Federal Transit Administration (FTA) or state requirement, which requires corrective action by a pre-determined date in order to maintain eligibility for transit funding programs. The 2021 and 2022 projections are based off an approximate 10 percent reduction from the prior year of deficiencies in any category greater than no deficiencies.

2c. Provide a measure(s) of the program's impact.

The Section 5303 program is directly tied to the Section 5310 program. Federal transit law, as amended by the Moving Ahead for Progress in the 21st Century (MAP-21) transportation act, requires that projects selected for funding under the Section 5310 program be included in a locally developed, coordinated public transit human services transportation plan and the plan be developed and approved through a process that includes participation by seniors, individuals with disabilities, representatives of public, private and nonprofit transportation, human services providers and other members of the public. The plans identify the transportation needs of individuals with disabilities, seniors and people with low incomes; provide strategies for meeting local needs; and prioritize transportation services and projects for funding and implementation. Local plans may be developed on a local, regional or statewide level. The plans approved are for both rural and metropolitan planning organizations as well as the Missouri Public Transit Association. Plans are updated once every five years. The number of plans approved in 2018 is high because the majority of the plans approved came up for renewal in this year. The 2021 and 2022 projections are based on the current approved plans.
