

Single Feasible Source Purchase

Title:	Safe Water Software Modules and Support Services
Description:	The Missouri Department of Natural Resources (DNR) requires continuing the maintenance and support for the Safe Water Software Modules from Global Environmental Consulting (GEC). The software and associated maintenance/support fulfills certain business needs of state regulatory agencies that are not currently supported by the software provided by the Environmental Protection Agency (EPA). The software is proprietary to Global Environmental Consulting. As a result, this represents a proprietary requirement that meets the criteria as a single feasible source under RSMo 34.044 as the state is pursuing this acquisition as a Single Feasible Source.
Contract Period:	October 23, 2015 to October 22, 2016
