

## **Single Feasible Source Purchase**

**Title:** Software Maintenance for Automated Drivers License Testing System

**Description:** The Missouri State Highway Patrol (MSHP) acquired an Automated Drivers License Testing System from Solutions Thru Software (STS) in 2005. The MSHP requires the ability to acquire new licenses, ongoing software maintenance/support, custom-made kiosks & associated delivery services, software installation, and training specific to the testing system. It is not financially feasible to replace the existing system in lieu of maintaining the existing customized system. The software is proprietary to STS, thus STS is the only source for ongoing maintenance and support. As a result, this represents a proprietary requirement that meets the criteria of a single feasible source under RSMo 34.044 and the State is pursuing this acquisition as a Single Feasible Source.

**Agency:** Missouri State Highway Patrol (MSHP)

**Supplier:** Solutions Thru Software (STS)

**Buyer:** Roy Burgess

**Phone No:** (573) 751-1692

**E-Mail:** Roy.burgess@oa.mo.gov

**Requisition No.:** NR 812 HP067000028

**SFS No.:** SFST30034901800039
