

Single Feasible Source Purchase

Title: Women, Infants, and Children (WIC) Participant-Centered Services Implementation

Description: To restructure the nutrition assessment process, implement an enhanced paraprofessional role, and create a training program for nutritionists and paraprofessionals for the WIC Program.

Altarum Institute is a nonprofit healthcare research and consulting organization and is considered a single feasible source because the Altarum Institute is the only company that provides the specialized assessment and training services and is named in the WIC Participant-Centered Services Implementation Grant awarded to Missouri by the USDA.
